

Robert Marler
2009-2010 MBAA Recreation Chair Platform

As stated in the MBAA Constitution the Recreation Chair shall:

- a) Attain information about intramural leagues, solicit players and disperse information to the membership.
- b) Ensure that enough players are available to sign up for a sport in order to avoid forfeiture.
- c) Discuss number of teams registered with treasurer.
- d) Ensure that all members of the Association are given the opportunity to participate in all intramural activities, except for those instances when participation is exclusionary (i.e. all male or female tournaments or events).
- e) Ensure that all teams are formed in an equitable manner.
- f) Strive to meet the objectives of the MBAA as stated in Article II, Section 1 of the MBAA Constitution.

As MBAA Recreation Chair I will work to promote awareness of the intramural sports offered at LSU for MBA students. I have been an active participant in numerous intramural sports during my first year in the Flores MBA Program, as well as, throughout my undergraduate years at Louisiana Tech University. If selected, I will be diligent in registering teams and conveying game schedules to those team members. I will ensure that every MBA student is given a chance to participate in any LSU intramural sport available. I believe that recreational activities contribute to a well-rounded collegiate experience.

I will also encourage the camaraderie and LSU culture among those participating in intramural sports. Encouraging first-year MBA students will be of utmost importance in order to catalyze their involvement and relationship building with fellow MBA students. Not only do these activities provide an opportunity for socialization among students outside the classroom environment, but also a chance to enhance teamwork which is essential to a successful career both in the MBA program, as well as the business world. Finally, I strongly believe in promoting an active lifestyle. Intramural sports present MBA students with a chance to participate in a healthy activity. I aim to foster awareness of Intramural activities and to increase the number of sports participated in by MBA students.

Sincerely,

Robert Marler
